

Colour palette

Colour plays an instrumental role in the Vocus brand. Our colours and our colour palettes provide the flexibility to dial up or down the vibrancy to suit a particular audience.

Lead colour – Vocus Blue

Vocus Blue is our lead colour and is used as the background for the majority of communications, content and our logo. It's key to our brand identity and should be used strategically across all touchpoints creating distinction and consistency for the brand.

Vocus Blue serves as the anchor of our colour palette, consistently appearing across all touchpoints. It conveys trust and reliability, the foundation of a brilliant network. It also ensures high contrast for clear and readable text across our vibrant secondary colors.

Secondary palette – Brights

While Vocus Blue may be the lead colour of the identity, it doesn't shine brilliantly alone. Our secondary colours complement the lead Blue and help create energy and emotion for the brand.

Vocus Blue CMYK: 100 97 7 7 RGB: 2 14 146 Hex: #020E92	Vocus Yellow CMYK: 0 15 100 0 RGB: 255 204 0 Hex: #FFCC00	Vocus Orange CMYK: 0 56 90 0 RGB: 255 139 47 Hex: #FF8B2F	Vocus Magenta CMYK: 0 90 0 0 RGB: 255 77 215 Hex: #FF4DD7	Vocus Green CMYK: 62 0 100 0 RGB: 77 255 77 Hex: #4DFF4D	Vocus Teal CMYK: 70 0 13 0 RGB: 0 255 255 Hex: #00FFFF

To our core colour of blue, we added bright colours. The reference for these bright colours is that they are some of the standard industry colours for fibre optic cables.

Core colour

Vocus Blue is our lead colour and is used as the background for the majority of communications, content and our logo.

Vocus Blue

CMYK: 100 97 7 7
RGB: 2 14 146
Hex: #020E92

Secondary colours

These colours are to be used to complement the lead core colour and help create energy and emotion.

Vocus Yellow

CMYK: 0 15 100 0
RGB: 255 204 0
Hex: #FFCC00

Vocus Orange

CMYK: 0 56 90 0
RGB: 255 139 47
Hex: #FF8B2F

Vocus Magenta

CMYK: 0 90 0 0
RGB: 255 77 215
Hex: #FF4DD7

Vocus Green

CMYK: 62 0 100 0
RGB: 77 255 77
Hex: #4DFF4D

Vocus Teal

CMYK: 70 0 13 0
RGB: 0 255 255
Hex: #00FFFF

Tertiary colours

Our tertiary colours are to be used for functional purposes in combination with our core and secondary colours, tertiary colours have limited use.

Vocus Grey

CMYK: 4 3 4 0
RGB: 241 240 238
Hex: #F1F0EE

Lightest Vocus Blue 01

CMYK: 8 7 0 0
RGB: 230 231 244
Hex: #E6E7F4

Lighter Vocus Blue 02

CMYK: 40 34 0 0
RGB: 154 159 211
Hex: #9A9FD3

Light Vocus Blue 03

CMYK: 79 74 0 0
RGB: 78 86 179
Hex: #4E56B3

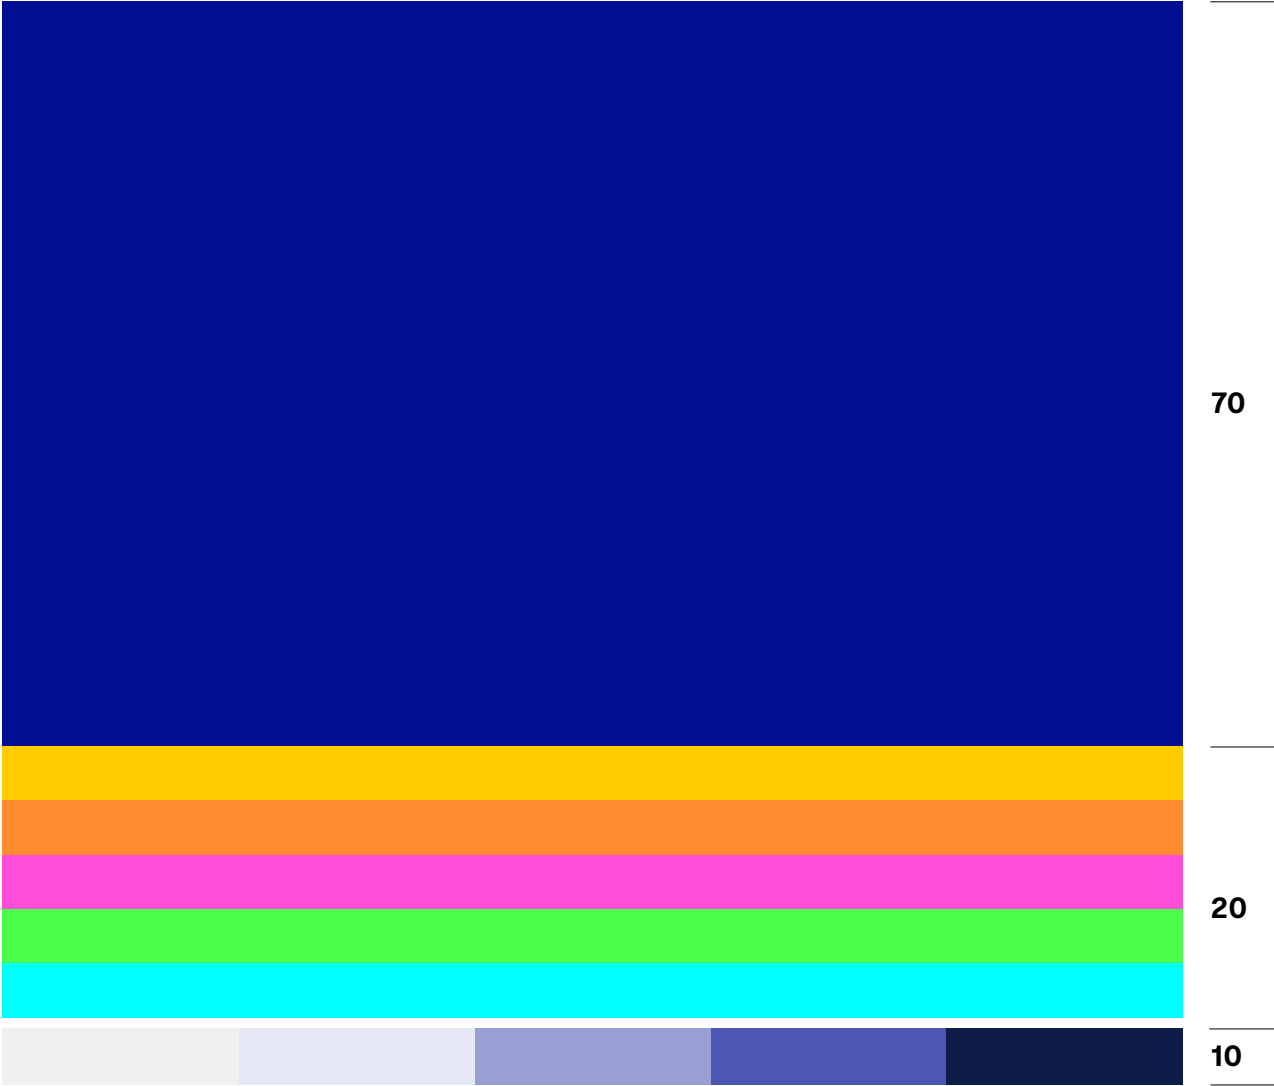

Dark Vocus Blue 04

CMYK: 100 100 6 60
RGB: 15 28 71
Hex: #0f1c47

Vocus Blue: the unifying thread,
Always use it. Vocus Blue
connects all your touchpoints,
ensuring consistency. Use it for
backgrounds or text, depending
on the touchpoint.

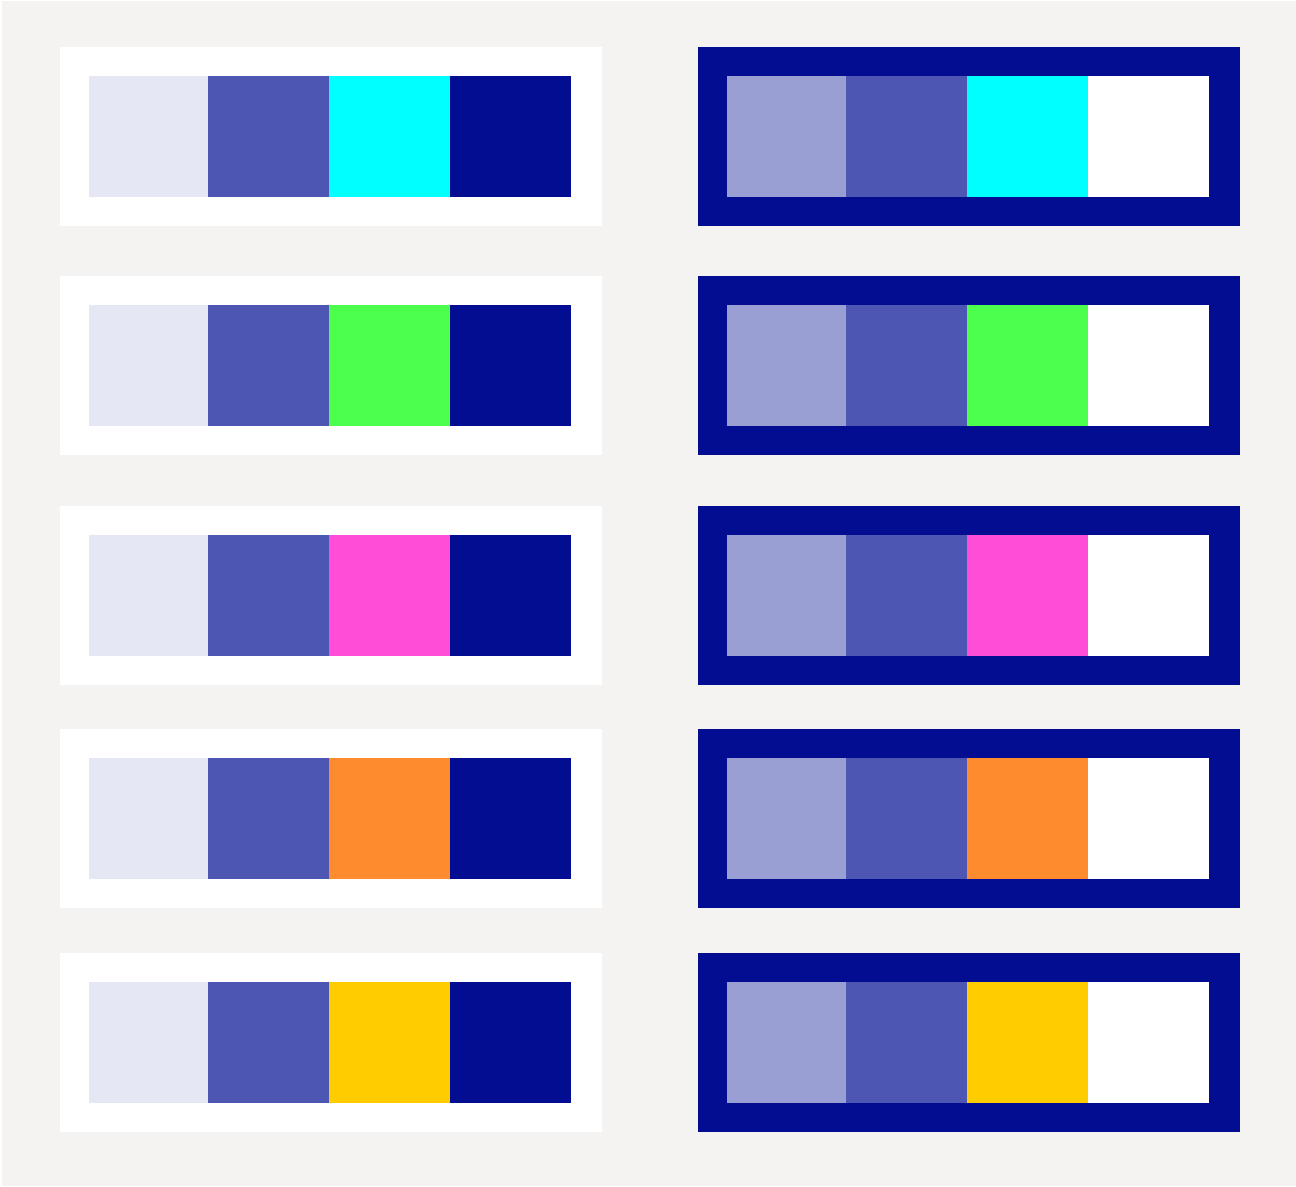

Colour Weighting

Colour weighting is about creating a consistent brand experience across all touchpoints. It's the overall feeling customers get from seeing your brand colours used together. Balance is key, the guide shows a balanced split (roughly 70/20) between Vocus Blue (primary) and the secondary palette. With the tertiary colours playing a limited role within the hierarchy of colour weighting.

To our core colour palette of blues, we added bright colours. The reference for these bright colours is that they are some of the standard industry colours for fibre optic cables.

Colour Theming
Below are suggested theming options for such assets as websites, digital assets and PowerPoint themes.

To ensure everyone can easily read your text, we follow the WCAG (Web Content Accessibility Guidelines) for colour contrast. These guidelines define minimum colour differences between text and its background for optimal readability.

Colour Accessibility

For optimal readability and accessibility, use these colour combinations:

Large text: Vocus Blue on a background colour from the secondary palette, or vice versa. Large Text is considered large if it's bold and at least 14 points (around 18.66px) in size, or if it's not bold but at least 18 points (around 24px) in size.

Normal text (body copy): Black on a background colour from the secondary palette, or white text on Vocus blue background. Normal refers to text that is 12 point or smaller.
